

Solarpunk:

From Anarchy to Globalism, What Is The Best Path Towards a Just and Stable Future?

Daniel J. Okuniewicz Jr.

Preface

Our world is faced with new and unique challenges derived from growth, ever-increasing in rapidity. Borne from industrialization and globalism is an insatiable hunger for expansion. Expansion, expansion, expansion! More and more and more! Not only is there no end in sight, but individual choices are more consequential than ever before, such that, ironically, individualism has less and less importance.
